-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-4 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-4 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 20 November 2003 is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Regarding claim 1, the phrase "and the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "and the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Additionally, some of the limitations of Claim 1 are awkwardly worded. For example, in lines 3-4, it appears that Applicant intends to claim a cigarette paper having a glued strip along the "width", as opposed to the "length". Also, in lines 9-11, it appears that the wording should be as follows: " – said stiff paper tipping being attached to said cigarette paper along its length and resulting, upon rolling the cigarette, [forms] in a cigarette extender portion; --

4. In claim 4, the claim recitation is unclear. It appears that Applicant intends to recite "the stiff tipping paper is applied to the cigarette paper [stiff tipping paper] by a non-harmful adhesive. –

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by George (US. Pat. No. 5,657,773).

George discloses all that is recited in the claims, since George teaches cigarette paper 12, with a glue strip 16 along one side of the paper; smoking material; and a rolling strip 22 (corresponding to the claimed “a strip of stiff paper tipping”), which is positioned such that it has a length coextensive/overlaps with the length of the cigarette paper – along at least a portion of the cigarette paper’s length (see entire document and figures and especially, col. 6, lines 60-63) – where upon completion of the production of a rolled cigarette with tobacco, the rolling strip 22 acts as a filter to minimize or eliminate the passage of smoking material into the smoker’s mouth, and also serves to insulate the smokers lips and fingers from the combustible tobacco material during smoking.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1731

8. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over George (US. Pat. No. 5,657,773).

Regarding claim 2, while George may not specifically state that the rolling strip 22 has a dimension of 1/8 of an inch, it would have been obvious to one having ordinary skill in the art at the time of the invention to have arrived at the size, after routine experimentation, in order to achieve favorable size in order to accomplish its function of serving as a barrier to the smoker's lips and the burning smoking material.

Regarding claim 4, it would have been obvious to one having ordinary skill in the art at the time of the invention to have applied the rolling strip to the cigarette wrapper by a non-harmful adhesive since non-toxic glue is a common paste, and such is conventionally used to adhere two pieces of paper together.
